

* My school year 2020\2021

* I have started this school year well.

* I met my friends. After that our tutor started the school meeting and we went into the school together. We didn't have lessons! it was amazing.

* in the winter I went to Moscow. I was in a skyscraper for the first time .Inside, on the floor, they sold ice cream and chocolate, and it was delicious. There was nothing else interesting for me

Not long ago there were holidays which lasted for 11 days. During this time I had a good rest and a lot of time for sleeping. Summer vacation is coming soon, but it`s going to be 2 terrible weeks after that. We will be writing a lot of final tests. I am sure that this work will be hard, but there are the best 3 months of the year ahead, so I am not upset
