

Isolation 2020\2021

The event that has impressed me most this school year.

The event that has impressed me most this school year is the Isolation. During the Isolation I wanted to play computer games. But I was disappointed when my mom said that we would have online-lessons. That was a disaster for me because I didn't want to learn. But I didn't care, I was playing computer games every day.

Bonuses

I had 1 bonus more - I could sleep until 11-13 pm. And it felt so good. I could oversleep my online lessons. Moreover, I could avoid online lessons live if I said that my headphones were broken. It was bad, but I didn't care.

My marks during the Isolation got better, because I was cheating every time at online lessons. Certainly that was bad, but I didn't care. Any ways to make the marks better are good.

Thanks for reading.
